Significance of the Workshop

The workshop aims at disseminating and discussing the outcomes of short-term empirical research project conducted on impact of Digital India initiatives in higher education institutions across Karnataka. As we witness the rapid evolution of technology and its impact on education, it becomes imperative for educators and policymakers to understand and leverage the potential of Digital India initiatives. This workshop aims to bring together researchers, academicians, and stakeholders to share insights, exchange ideas, and foster collaboration in the context of digital transformation in higher education. The workshop seeks to stimulate discussion, share best practices, and explore potential avenues for further research and implementation.

Profile of the Nrupathunga University

The Nrupathunga University Formerly Government Science College is born out of the visionary foresight of the erstwhile Maharaja (King) of Mysore, His Highness Shri Nalvadi Krishnaraja Wodeyar on the 1st of April 1921 as an intermediate college. As a testimony to its leadership in higher education, the institution has grown from a modest intermediate college to a full-fledged undergraduate college and now into a post-graduate institution with research programs. This institution has been dedicated to quality education and to preparing students for leadership in diverse walks of life while at the same time being tempered by social concern, empathy and visionary leadership across two centuries. Owing to its scope and pace of change, post-2000 will go down in the history of this institution as the period of its most spectacular expansion and quality enhancement. The introduction of PG courses, research programs, with successive NAAC accreditations of B++ and "A" in 2009 and A+ in the 3rd cycle of Accreditation with 3.54 points, followed by CPE status in 2009 and 2015 and more recently the autonomous status are some of the milestones of the last decade.

Now, the college has been elevated as NRUPATHUNGA UNIVERSITY in the year 2020 (Centenary Year). The institution in its new avatar as university will strive to be the best of its kind while keeping its traditions alive. This temple of enlightenment has stood the test of times as a beacon of knowledge for generations of youth who have served the society from pre-independence to the post-independent era. The greatest testimonial is the contribution of its students to society and Nrupathunga University is quietly proud to have contributed to society's growth over 100 years of glorious existence through a set of students who are etched as knowledge revolutionaries in the by-lanes of history.
